

Falco SaaS - OPS

Smart OPS | Strong Outcomes

Why HVMs choose Falco?

- ❖ Reduce Breakdown by 30%,
- ❖ Predictable Capacity
- ❖ Real-time Visibility

What's Broken Today

- ❖ Unplanned Downtimes eating into capacity
- ❖ No Real-time Visibility for Operations and Plant Heads
- ❖ Capacity Imbalances and Bottlenecks

• What Falco OPS for HVMs – Enables

- ❖ **Falco OPS** is purpose-built solution for High Volume Manufacturing (HVM)
- ❖ Integrating Capacity Loading, Maintenance, IoT, Dashboards

Critical Modules for every Plant

TPM

- ❖ Schedule Preventive Maintenance
- ❖ Follow SOPs and Checklists
- ❖ Control Breakdowns

MyKRA - Dashboards

- ❖ Monitor Shift Performance
- ❖ Track Production Vs Plan
- ❖ Real-time KPI Measurement
- ❖ Ensure proof of work

DOIT – Live Floor Data

- ❖ Live Production Monitoring
- ❖ Equipment Performance
- ❖ Quick TPM Response
- ❖ Analytics and Dashboards

Capacity Planning

- ❖ Delivery Plan based on actual Capacity
- ❖ Real World Constraint – Not Theory
- ❖ Improve Promise Accuracy
- ❖ Crush Over Time Bubble

Why It Works for MSMEs

- ❖ **Modular & Affordable** — Start small, expand as needed. No massive upfront investment.
- ❖ **Real Data, Real Decisions** — Every action tied to machine performance, capacity load, and actual output
- ❖ **Zero Hype, All Impact** — Tracks, triggers, and transforms production — without disrupting your existing setup.
