

# Falco SaaS - OPS

Smart OPS | Strong Outcomes

## Falco PCS – Part Costing System 0.

### From Drawing to Cost – Govern Every Part with Precision

Accurately generate, Cost and control part numbers – across in-house manufacturing and vendors – with engineering change tracking

### What's Broken Today

- ❖ Engineering Teams manually create part numbers and drawings
- ❖ No link between drawing and part number
- ❖ Cost sheets and vendor quotes in isolation
- ❖ Rate escalation and approvals lost in email trails

### What Falco PCS Enables

- ❖ Dynamic Part Number generation
- ❖ Integrated costing logic for both manufactured and bought-outs
- ❖ Full control over master rates, cost escalation and approvals
- ❖ Manage Proto part with separate flow

## Core Modules and Features

### Part Number Control

- ❖ Auto generate part numbers based on 20+ attribute masters
- ❖ Proto part series – separate flow
- ❖ Convert Proto Parts into regular in bulk
- ❖ Manage Engineering Change Levels

### Part Costing Engine

- ❖ Upload Process Recipe and Material Specs
- ❖ Auto Compute
  - ❖ RM Cost
  - ❖ Process Cost
  - ❖ Labor and Machining Cost
  - ❖ Other – Scrap etc.
- ❖ Rate Validity Alerts
- ❖ Escalation Based Approvals

### Part Costing Bought-out

- ❖ Register Vendors and upload Multiple Quotes
- ❖ Run comparative analysis
- ❖ Route thru approval + audit trail
- ❖ Escalation for high-value items
- ❖ Single Vendor – separate approval

### Why Falco PCS

- ❖ No longer waiting time for costing
- ❖ Reduce Costing errors
- ❖ Standardize rate updates and version control
- ❖ Eliminate procurement delays due to pending costing
